BIOGRAPHY

Born and raised in Denver Colorado, now living in Las Vegas. Tanastadi has been Djing now for 15+ years. Starting out as a turn-tablist he pursued the art of scratching, beat juggling & battle routines. The passion didn't stop there, he started getting into the club/rave scene and started producing Mash Ups. After Serato was manufactured, Tanastadi knew he was ready to pursue his dreams of being a club Dj & radio Dj. First appearing on the scene in 2006, and since then, he has been blessed to show his talents in venues all across the U.S. like Colorado, Las Vegas, California, Oklahoma, & many more. This has helped lead Tanastadi into his dream of being a radio Dj. He has been apart of KQKS 107.5 FM since January of 2009. Which gave him the opportunity to be able to perform and collaborate with today's hottest main-stream artists. Now, having clubs and radio under his belt, he is still not satisfied. Getting deeper into producing beats, mash ups, and mixtapes, he believes there are unlimited ways of being DJ, and unlimited ways he can portray what a DJ is, and with that being said, Dj Tanastadi is determined to set new standards.
